

SCOR PROFESSIONAL ENDORSEMENT

The SCOR Professional (SCOR-P) endorsement establishes a global standard of excellence for applying SCOR.

What is SCOR?

Moving the needle on supply chain performance isn't easy. APICS has worked with thousands of global supply chain organizations to build company-wide engagement to create and deploy powerful, transformative programs.

For 20 years the Supply Chain Operations Reference (SCOR) model has been the cross-industry, global standard for supply chain excellence.

The SCOR Professional program provides employees with the major process components of the SCOR framework: Plan, Make, Source, Deliver, Return, and Enable. This helps companies increase the speed of system implementations, improve inventory turns, and drive measurable supply chain process improvement and business performance.

Who should earn the APICS SCOR-P endorsement?

APICS SCOR-P education is essential for employees working in:

- Production Management
- Operations
- Supply chain management
- Procurement
- Materials Management
- Inventory Management

Prepare for the Exam

PAN APICS is offering a SCOR-P three-day instructor-led training course beginning April 23, 2019 in Center City Philadelphia. The course fee includes SCOR training materials and exam fees. More information is located at <http://pan-apics.org/SCOR>.

Questions?

Feel free to email Salvatore Miragliotta, VP Education for PAN APICS at vp-education@pan-apics.org.
