

SCOR

Drive value. Build leaders.

Moving the needle on supply chain performance isn't easy. APICS has worked with thousands of global supply chain organizations to build company-wide engagement to create and deploy powerful, transformative programs. For 20 years the Supply Chain Operations Reference (SCOR) model has been the cross-industry, global standard for supply chain excellence. It addresses, improves and communicates supply chain business performance. It's the best supply chain process framework, and it just got better.

New SCOR model for the modern supply chain

The world's leading supply chain framework now incorporates many emerging drivers of supply chain success, including:

- Omni-channel, metadata, block chain, and other emerging topics
- Modernized best practices and processes to better align with digital strategy
- Updated people skills and training, based on APICS body of knowledge
- Sustainability standards based on The Global Reporting Initiative (GRI)
- Tighter alignment of supply chain management costs with SCORmark benchmark
- Process workflows generated by the SCOR BPM Accelerator, ensuring accurate data mapping

Experience the power of SCOR

Become an APICS Corporate Member to work with a team that can help transform your supply chain organization into one that leads with excellence and performance in mind.

Drive excellence in your organization

Be sure your supply chain leaders are equipped to drive performance improvements with training for the SCOR Professional (SCOR-P) endorsement. In-house or public classes are available.

It's a fact: businesses aligned with APICS perform better.

APICS aligns with business leaders and organizations to support their journey to supply chain excellence. Contact APICS Corporate Development to learn more: corporatedevelopment@apics.org.

About APICS

APICS is the association for supply chain management and the leading provider of research, education and certification programs that elevate supply chain excellence, innovation and resilience. The APICS Certified in Production and Inventory Management (CPIM); APICS Certified Supply Chain Professional (CSCP); APICS Certified in Logistics, Transportation and Distribution (CLTD); and APICS Supply Chain Operations Reference-Professional (SCOR-P) designations set the industry standard. With more than 45,000 members and approximately 300 channel partners, APICS is transforming the way people do business, drive growth and reach global customers. For more information, visit apics.org.
